DETAILED ACTION

Response to Amendment

1. The following is in response to the applicant's amendments and arguments filed 8/30/2005.
2. The applicant's amendments and arguments both focus on the intended use of the composition. The applicant's has amended the claims to further specify the substrate onto which the claimed composition is intended to be used.
3. Similarly, the applicant's arguments are specifically directed to the differences in intended use between the instant claims and the teaching of the prior art.
4. Although the examiner appreciates the applicant's arguments, the examiner is not persuaded.
5. The applicant's claims are directed to a cleaning composition. Cleaning compositions remove substances from a substrate. Should two materially identical compositions be formed, one intended for cleaning automobiles and the second intended for cleaning semiconductors, both compositions, as they are identical, could be substituted for one another without a degradation in performance.
6. The applicant's material limitations in claim 1 are exceedingly broad. For example a first compound including a hydroxyl ion is a class of compounds containing billions of compounds. Similarly, a second compound containing fluorine would include a huge class of compounds.
7. As the examiner has provided art in the general area of semiconductor cleaning and as the examiner has found each and every material limitation in the claims, previous rejections are maintained.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
